Course Overview and Objectives

Our After Effects CS6 helps you take performance to a new level with Global Performance Cache, which maximizes your productivity by saving virtually every preview for instant recall, meaning less waiting for After Effects to catch up. Learn how to tweak the software to work as fast as you do. Create and work with extruded text and shapes directly in After Effects, using the new ray-traced 3D rendering engine for a polished final look. Master a wide variety of challenges and extend your creativity with new tools such as variable mask feathering, 3D Camera Tracker, Rolling Shutter Repair, and more high-quality built-in effects to make your final product look the way you intend. Enhanced integration between After Effects CS6 and other Adobe tools makes your workflow even faster and more fluid than ever before.

Pre-requisites:
A basic to intermediate
knowledge of your OS.
