

## Advanced Image Retouching WorkShop

### Advanced Image Retouching WorkShop Course Outlines

**Duration: 2 Days**

**Overview:**

Learn to retouch an image like the Glamour Magazine Professionals! -  
We take you through the critical phases of assessing your image, and then planning your retouching workflow. Understanding the lighting techniques will greatly assist you in realistically retouching your artwork.

You will be taken through a real-life retouching job, employing all the various tools for Healing, Cloning and correcting your subject matter (without over-doing it!)

You will also be taught tricks, tips and techniques for correctly retouching your artwork, as well as fast studio techniques to employ when you can't spend time contemplating every pimple!

**Pre Requisites:**

Students must have good working knowledge of Adobe PhotoShop CS4/ CS5. They should be able to already understand PhotoShop Layer Architecture and how the various Brushes work .

A good knowledge of the Operating System is also necessary.
